## Black Friday 2013 Ads App-BlackFriday.fm

- Shows the actual paper ads that come out
- Still not as easy to navigate as TGI Black Friday
- Great for browsing specific stores

## Dealnews App

- Best overall Deal Application, but not for specifically Black Friday
- Use this for this rest of your Christmas shopping after Black Friday

## Black Friday App from SlickDeals

- Has great discussion boards about deals
- Doesn't show original price of item so you can't tell how much savings each item is showing
